UNIVERSITY EXPERIENCE : Adjunct Professor and PHD

After she graduated in Architecture from University of Florence with a thesis in City Planning and thanks to the passion infused by professors such as Gianni Pettana, Remo Buti etc. (some of the founders of Radical Architecture Movement in Florence) she decided to continue her academic qualification. She started a PHD program with intent to investigate major issue of City Planning using GIS (Geographical Information System), the new frontier for the analysis of the landscape and its history. After this experience she acquired the title of Lecturer and she obtained a 3rd year course of “Organisation of Industrial Design Production” at Industrial Design Faculty of Florence.
